IT Skills

- Languages:** C#, VB, C, Python
- Web Technologies:** Asp.NET, MVC, WCF, WPF, Web API, HTML, CSS, Java Script, AngularJS
- Entity Framework, LINQ**
- Platforms/Operating Systems:** Windows 7/10, IOS
- RDBMS:** SQL Server 2014
- Middle Tier:** IIS, ADO .NET
- Third Party Technologies:** Infragistics, Teleric Kendo UI, Salesforce
- CMS:** Umbraco, Sitecore
- Application Life-cycle Tools:** TFS, SVN and Git

Core Competencies

ASP.Net/ MVC Development

Module Level Analysis

Database & Template Designing

Requirement Gathering & Mapping

User Acceptance/Unit Testing

Technical/Functional Solution Delivery

Software Implementation & Support

Project Execution

Professional Experience

Since Oct'16 with Sapient, Bangalore as Associate Technology L2

Mar'15-Oct'16 with Infosys Technologies, Bangalore as Senior Systems Engineer

Sep'13-Mar'15 with Axionet Business Solution, Bangalore as Senior Software Developer

Key Result Areas:

- Analyzing user needs and software requirements to determine feasibility of design within time and cost constraints
- Consulting with customers about software system design and maintenance
- Ensuring adherence to quality norms throughout the implementation process
- Identifying, analyzing defects, questionable functions, errors, and inconsistencies in software program functions, outputs, online screens, and content
- Managing the end-to-end development activities including requirement analysis, planning, finalizing specifications, implementation, testing and deployment
- Creating functional specification and designing the documentation for executing the software development
- Configuring & customizing the system and establishing the solution for application & database
- Conducting UAT for the established solution and imparting end-user & admin. training for the implemented solution to manage IT assets

Highlights:

- Contributed as a part of a member team of ten that developed and managed an application which improved productivity of 10000+ sales representative by 40%
- Developed process-automation tools using technologies such as SSIS, Microsoft Azure to automate a number of daily workflows, including adding/removing users from AD group, bulk SMS sends and daily XML import/exports from one system interface to another
- Performed unit, functional and load testing activities using tools such as Visual Studio, NUnit, JMeter
- Created a deployment tool that saved 80% of deployment time for developers and testers

Personal Details

Date of Birth: 31st May 1990

Address: NO-22 Patel Narayana Reddy Layout, Ejipura, Koramangala, 6th Block, Bangalore, Karnataka-560095

Languages Known: English, French, Hindi and Bengali

Passport No.: M6402983

Annexure

Project: AGI R3

Client: Allianz Global Investors, Bengaluru

Period: Oct 2016 - Present

Designation: Senior Programmer

Team Size: 20

Skills: Sitecore, Glassmapper, MVC 5, SOLR, Salesforce, SQL Server 2012, JavaScript, HTML 5, CSS 3

Role: Module Level Analysis, Database Designing, Coding, Template Design, Rendering, Content Creation

Description: The application is developed in Sitecore 8.2 and will be launched in different locations (NA, APAC) as per site launch. It gives end-users a great flexibility to manage end users and show them only relevant products specific to their interest.

Project: IDeploy ORCA

Client: Mondelez, Bengaluru

Period: Mar'16 – Sep'16

Designation: Senior Programmer

Team Size: 7

Skill: MVC 5, SQL Server 2012, Microsoft Unity, JavaScript, HTML 5, CSS 3

Role: Module Level Analysis, Database Designing, Coding and Implementation

Description: This is a planning application to plan Sales Representative's work and time for each store in all the EU and NA regions. This maps each Sales Rep to the particular store for the entire week/month. Each weekend it triggers automatic messages and mails to the Sales Reps regarding their next week schedules and there is a provision that if any SR person has taken leave then automatically assign the store details to a similar person who is having less work hours for the day.

Project: Mondelez Negotiations

Client: Mondelez, Bengaluru

Period: Nov'15 – Jan'16

Designation: Programmer

Team Size: 3

Skills: Umbraco, MVC, HTML 5, CSS 3, AngularJS

Role: Module Level Analysis, Designing, Coding and Implementation

Description: This is CMS application build in Umbraco and Asp.Net MVC. User can edit and upload content, images and PDFs to the portal without any outside help.

Project: TicketDesk

Client: Mondelez, Bengaluru

Period: Mar'15 – Oct'15

Designation: Programmer

Team Size: 5

Skills: Asp.Net MVC, SQL Server 2008, JavaScript, Ajax, HTML 5, CSS 3

Role: Module Level Analysis, Designing, Coding and Implementation

Description: TicketDesk is an online ticketing system developed in Asp.Net MVC used by end user or support user to create ticket request for access/content or any issues. Users can create a ticket either by mail or front-end.

Project: Interface Rewrite
